9. CENTRAL OFFICE SERVICES

9.1 DIAL SWITCHING SYSTEMS

9.1.16 CENTREX PLUS SERVICE

A. Description

1. Centrex Plus Service is a business communications system furnished only from a Stored Program Controlled central office and is offered subject to the availability of facilities and applicable generic feature programs. A group of station lines is translated for an individual customer group and provides common access to a predetermined group of system features. Customers have a choice of access to the general network via each Centrex Plus station line (non-blocking) or controlled access (blocking) depending upon the number of Network Access Registers subscribed to by the customer as found in 5.3.6.
2. Centrex Plus Common Line Facilities include the following, depending upon the serving central office:
 - Direct Dialing/Originating Terminating
 - Hunting
 - Intersystem Calling
 - Touch-Tone

B. Terms and Conditions

1. All Centrex Plus station lines must be associated with the main switching equipment. Other switching systems connected to a Centrex Plus system by Voice Grade Circuits or group use arrangements are considered as separate systems and are billed as such.
2. Each customer will be required to sign a contractual agreement for the furnishing of services on a rate stabilized basis.
3. Customer request for temporary suspension, either full or partial, of Centrex Plus Service is not permitted. Seasonal disconnects are allowed providing all rates and charges still apply.

Issued: 7-18-95

Effective: 8-18-95

SECTION 9
First Revised Sheet 2
Cancels Original Sheet 2

9. CENTRAL OFFICE SERVICES

9.1 DIAL SWITCHING SYSTEMS

9.1.16 CENTREX PLUS SERVICE

B. Terms and Conditions (Cont'd)

4. Where a Stored Program Controlled *CENTRON* Custom customer elects to convert to Centrex Plus Service, nonrecurring charges do not apply to in-service station lines, terminating arrangements, and optional service features provided that (1) the customer's system continues to be served by the same switching equipment, (2) there is no interruption of service, and (3) there are no moves, changes or additions of such in service station lines, arrangements and features.
5. Customers will be responsible to furnish all premises wiring, terminal equipment and jacks used with the Centrex Plus Service.
6. The rates and charges specified for Centrex Plus are in addition to the regular rates and charges for the services with which the Centrex Plus is associated, e.g., WATS, Voice Grade Circuits, etc.
7. One primary directory listing is furnished without charge for each Centrex Plus system. Directory listings of main station lines may be provided at the regular business additional listing rate (CLT) as specified in 5.7.1.
8. Transfer of calls will be provided on listed directory numbers on a total system disconnect only.
9. Customers not wishing to change their listed directory number to be part of a total system may keep their existing number(s); however, there would be a Centrex Plus chip-in charge for translating listed directory numbers from outside the Centrex Plus customer group. Centrex Plus Service chip-in occurs when a non-sequential telephone number or block of numbers is added to a new or existing sequential Centrex Plus number arrangement.
10. Centrex Plus telephone numbers may be sequential or nonsequential. Sequential numbers may be assigned if blocks of numbers are available and at the discretion of the Company. Customers requesting that numbers in a sequential block be removed from the block will be charged a Block Compromise Charge as specified in 5.3.4, Direct-Inward-Dialing Service.
11. Customers may reserve additional telephone numbers for future use at the rates specified in 5.3.4, Direct-Inward-Dialing Service.

9. CENTRAL OFFICE SERVICES

9.1 DIAL SWITCHING SYSTEMS

9.1.16 CENTREX PLUS SERVICE

B. Terms and Conditions (Cont'd)

12. After the service date, a customer removing station lines in whole or in part, below a minimum line commitment quantity, will be subject to a termination charge. A service date will be considered the date of initial installation of station lines for a new system or the effective date of a contract renewal for existing systems. A minimum line commitment will be considered to be 60% of the number of lines initially installed and in service on the annual anniversary date of the Rate Stability Agreement. Company billing records will serve as documentation of the number of lines in service for the purpose of establishing the minimum line commitment. During the first year of a Rate Stability Agreement, the minimum line commitment will be based on the total number of lines in service 60 days after the first line is installed for a new system or the number of lines in service upon renewal of a Rate Stability Agreement for an existing system. In subsequent years of an agreement the minimum line commitment will be based on the number of lines in service on the anniversary date of the agreement. The anniversary date will be considered to be the date of the last signature executing the agreement or a date specified in the agreement.

Termination charges will only be applicable to Centrex Plus main station lines unless other applicable elements are noted in an agreement. Termination charges are not applied to common equipment, or optional features.

13. Customers subscribing to the RSP shall be subject to the Termination Liability/Waiver Policy as set forth in 2.2.14.C.
14. Nonrecurring charges can be spread over the life of the contract at the present cost of money to the Company.
15. The customer may request a transfer of service from the customer premises location(s) to other customer premises location(s) within the Company's fourteen (14) state service area.

Advice No. 2753 Amended

Decision No.

9. CENTRAL OFFICE SERVICES

9.1 DIAL SWITCHING SYSTEMS
9.1.16 CENTREX PLUS SERVICE
B.15. (Cont'd)

The Company shall grant the customer's request if 1) necessary facilities are available; 2) the customer pays all uncollected costs associated with the original premises location including, but not limited to, stranded facilities costs, installation costs, labor costs, engineering costs, and service order charges; 3) the customer agrees to pay the recalculated monthly service charges and nonrecurring charges for the new location; 4) the move results in customer retaining in total the same or a greater number of Station Lines; 5) service is connected at the new location within thirty (30) days of the disconnect date at the old location; and 6) the Company and the customer execute either a written Supplement to this Rate Stability Plan or a new Rate Stability Plan, as is appropriate, with a term that is at least equal to the remaining term of this Rate Stability Plan. If the move results in the customer retaining in total fewer Station Lines or if service is not connected at the new location(s) within thirty (30) days of the disconnect date at the old location(s); the termination charge applies as specified in 2.2.14.C.

(M)

(M)

16. Customer Location

Customer primary location is that customer location within the area of their current serving CO designated on the customer's billing record.

Customer secondary location is a customer location other than the primary location served by one or more lines of the Centrex Plus system.

17. Centrex Plus Service is not available on Public Communications Service.

18. A customer may choose to combine station lines terminating at different locations into a single system. All station lines terminating in a system must be served by the same CO. Lines terminating or originating in different exchange or COs are subject to rates and charges found in the Private Line Transport Services Tariff.

19. The quality of transmission for calls utilizing Call Forwarding or Conferencing may vary depending on the distance and routing involved. For an enhanced quality of transmission, line conditioning is available at appropriate rates and charges as found in this Exchange and Network Services Tariff.

9.1 DIAL SWITCHING SYSTEMS

9.1.16 CENTREX PLUS SERVICE

B. Terms and Conditions (Cont'd)

20. Centrex Plus Service requires special CO equipment and is not provided in all COs. The Company may furnish Centrex Plus where there is available facilities and CO equipment, with the proper program updates, as determined by the Company.
21. Centrex Plus Optional Features will be furnished only where facilities permit as determined by the Company.
22. Loop Diversity and Avoidance defined in the Private Line Transport Services Tariff is available with Centrex Plus Service.
23. Customers may add lines to a Centrex Plus system at the rates and charges in effect at the time the customer signed the Rate Stability Plan agreement.
24. Centrex Plus rates and charges will be developed on an individual case basis when unique engineering and/or customer specified dedicated investment is required.
25. Customers cannot mix Centrex Plus measured station lines with flat station lines in the same system. Centrex Plus measured station lines will only be offered on a non-blocked basis.

(M)

(M)

C. Rates and Charges - General

1. Each Centrex Plus station line will include the common line facility and standard features. The standard Centrex Plus Feature Package is found elsewhere.
2. Centrex Plus station lines, 50 and under located outside the Base Rate Area will be subject to the outside the base rate area channel connection rate found in the Private Line Transport Services Tariff, in addition to the Common Line Facilities specified herein.
3. Rates and charges for the common line facilities will be charged according to the number of station lines per location. Each different location will begin with the 1-50 station line charges. Common line facilities for 51 station lines and over will be charged according to the distance of the station line from the serving central office, in quarter mile increments.

9.1.17 CENTREX 21 SERVICE

A. Description

1. Centrex 21 Service is a flat rate, non-blocked business service for customers with 3 to 50 station lines. Centrex 21 Service is furnished only from a Stored Program Controlled central office offered subject to the availability of facilities and applicable generic feature programs and will not be available in a 2BESS Central Office. Centrex 21 consists of standard features which are available to all station lines in the shared customer group. A Centrex 21 customer has a choice of having the features delivered via analog lines and/or 2B+S ISDN lines. Optional features are also available.
2. Centrex 21 Station Lines include the following, depending upon the serving central office:
 - Direct Dialing/Originating Terminating
 - Hunting
 - Touch-Tone
3. Centrex 21 optional features include the following features depending upon the serving central office:
 - Calling Connection Plan Credit
 - Business Daytime Connection Plus[1]
 - Volume Calling Connection[1]
 - *SUPER SAVINGS*[1]

(D)

B. Terms and Conditions

1. Centrex 21 Service ISDN station lines will be offered, from the customer's local serving Central Office only. ISDN Service from the Central Office is generally considered "available" for loops of 18 kilofeet or less in length. Loops greater than 18 kilofeet in length must meet extension technology design requirements. Service will be considered available if ISDN compatible pair gain systems or single line loop extension equipment are in place to serve the area. If the loop is greater than 18 kilofeet in length, the Loop Extension Charge applies.

(N)

B. Terms and Conditions (Cont'd)

2. Rates and charges for the Centrex 21 ISDN 2B+S lines do not include extended ISDN availability arrangements. Extended ISDN availability arrangements are only available on an individual case basis.
3. Centrex 21 Service equips the station lines in the system with all the standard features. Customers subscribing to this service are required to pay the monthly rates for service, whether or not all standard features are activated at initial installation.
4. The monthly rate for Centrex 21 Service covered under the Rate Stabilized Plan is guaranteed against Company initiated changes for the duration of the plan. The minimum Rate Stabilized Plan is 12 months. The maximum Rate Stabilized period is 60 months.
5. Centrex 21 Service customers may add station lines to an existing system at any time during the Rate Stability Plan period at the rates originally applicable to that customer. Customers whose station line growth exceeds 50 station lines, have the option to convert to other Company Services. The service period for converted Company Services will bear the same expiration date as that of the customer's original Rate Stability Plan.
6. Customers will be responsible to furnish all premises wiring, terminal equipment and jacks used with the Centrex 21 Service.
7. All Centrex 21 Service station lines must be associated with the same customer group.
8. Customer request for temporary suspension, either full or partial, of Centrex 21 Service is not permitted. Seasonal disconnects are not allowed.

9. CENTRAL OFFICE SERVICES

9.1 DIAL SWITCHING SYSTEMS

9.1.17 CENTREX 21 SERVICE

B. Terms and Conditions (Cont'd)

9. One primary directory listing is furnished without charge for each Centrex 21 system. Directory listings of station lines may be provided at the regular business additional listing rate as specified in 5.7.1 of the Exchange and Network Services Tariff.
10. Intercept Service will be provided on the main listed directory number for a total system disconnect only.
11. Customers may reserve additional telephone numbers for future use at the rates specified in 5.3.4. of the Exchange and Network Services Tariff.
12. If a customer terminates the agreement before the established service date, in whole or in part, the customer will pay cancellation charges as defined under the Termination Liability/Waiver Policy as set forth in section 2.2.14.
13. After the service date, if a customer with a fixed-period rate plan removes, in whole or in part, station lines below the Minimum Billing Level specified in the service agreement, a termination charge may apply, as defined in 2.2.14 of the Exchange and Network Services Tariff. (C)
14. The customer may substitute Centrex 21 Service with another Company service that functionally replaces Centrex 21 Service and provides equivalent or greater feature functionality as defined in 2.2.14 of the Exchange and Network Services Tariff. (C)
15. Centrex 21 Service is not available on Public Communications Service or multiparty service.
16. The quality of transmission for calls utilizing Call Forwarding or Conferencing may vary depending on the distance and routing involved. For an enhanced quality of transmission, line conditioning is available at appropriate rates and charges as found in 5.4.5 of the Exchange and Network Services Tariff.
17. Each customer will be required to sign a contractual agreement for the furnishing of services on a rate stabilized basis.
18. Caller Identification Blocking - Per Call and Caller Identification Blocking - Per Line as defined in 10.5.2 is available with Centrex 21 Service.

B. Terms and Conditions (Cont'd)

19. The customer may move the physical location of all or part of Centrex 21 to another location within the same Company serving area provided the following conditions for the move are met:

- The new Centrex 21 Service is provided to the customer by the Company;
- The customer advises the Company that the requested Centrex 21 Service replaces the existing Service;
- The customer's request for the disconnection of the existing Centrex 21 Service and the installation of the new Centrex 21 Service are received by the Company on the same date;
- The customer requests the Company to install the new Centrex 21 and disconnects the existing Centrex 21 Service within a 30 day period;
- The customer agrees to sign the appropriate agreements and to pay all then monthly rates and nonrecurring charges related to the new Centrex 21 Service.

20. The customer may add additional Centrex 21 Service at existing or new locations during the term of the agreement under the following conditions:

- The Company commercially offers such additions and necessary facilities are technically available;
- The rates and charges for additional service at new locations will be the then current charges in effect for Centrex 21 Service at the time of such additions.

C. Rates and Charges

1. Each Centrex 21 station line will include the standard features. The standard Centrex 21 Feature Package is found elsewhere.

9. CENTRAL OFFICE SERVICES

9.1 DIAL SWITCHING SYSTEMS (Cont'd)

9.1.18 CENTREX *PRIME* SERVICE

(N)

A. Description

1. Centrex *PRIME* service is a switched business communications service furnishing connections between a central office based switching system and the network interface which serves end user customer terminals. Centrex *PRIME* service is a multi-media platform which delivers integrated Video, Voice, Image and Data services to customers.
2. Centrex *PRIME* service includes Basic (analog) or ISDN (digital) station lines which may be provided utilizing various technological designs. The arrangements of these station lines will vary for each customer depending on the number of connections to a location, the desired technology, available technology, operating limitations, e.g. distance from a serving central office. A group of station lines is translated for an individual common block and is provided common access to a predetermined group of system features. Optional features are also available.
3. Customers select Centrex *PRIME* station lines based upon a Basic or ISDN alternative. The standard set of features provided varies depending on the alternative selected, and the available central office technology. A list of standard features for each alternative and central office technology is available on a separate list provided by the Company.
4. The ISDN alternative consists of three distinct channels per station line: two B (Bearer) channels and one D (Delta) channel (2B+D). ISDN is also available in a 2B+S configuration. The ISDN alternative may be provisioned as either Custom[1] or National. The ISDN alternative conforms to internationally developed, published, and recognized standards generated by the International Telecommunications Union (formerly CCITT).

[1] Custom ISDN is only available from an 5ESS Central Office.

9. CENTRAL OFFICE SERVICES

9.1 DIAL SWITCHING SYSTEMS

9.1.18 CENTREX *PRIME* SERVICE (Cont'd)

B. Terms and Conditions

1. All terms and conditions for the provision of Centrex *PRIME* service shall be subject to a Service Agreement between the Company and the customer.
2. Centrex *PRIME* Service is available as a business system for resale by certified resellers. Resale rates will be as established based on the provisions in the Local Network Interconnection and Service Tariff.
3. The rates and charges for station lines and system features will be developed on an individual case basis and will be specified in a Service Agreement between the Company and the customer.
4. Each customer system with blocked access is equipped with a number of Network Access Registers based on a standard Poisson Capacity Table. This table provides the number of Network Access Registers for the number of analog station lines and digital ISDN channels in the system. These Network Access Registers provide a standard level of usage for the customer system. This standard usage level is included in the station line rate. If additional Network Access Registers are required beyond the standard level, additional Network Access Registers may be obtained from 5.3.6.
5. The Unblocked Usage Adder is required in lieu of Network Access Registers. Should the customer's usage exceed an average of 8 CCS (hundred call seconds) during the busy hour per station line over a 3 month period, the customer will be converted to blocked service with the appropriate number of Network Access Registers.
6. End User Common Line charges will be assessed on Network Access.

9. CENTRAL OFFICE SERVICES

9.1 DIAL SWITCHING SYSTEMS

9.1.18 CENTREX *PRIME* SERVICE

B. Terms and Conditions (Cont'd)

7. Centrex *PRIME* Service requires special central office equipment and is not provided in all central offices. The Company may furnish Centrex *PRIME* where there is available facilities and central office equipment, with the proper program updates, as determined by the Company. For the ISDN station lines, service is generally considered "available" for loops of 18 kilofeet or less in length. Loops greater than 18 kilofeet in length must meet extension technology design requirements. Service will be considered available if ISDN compatible pair gain systems or single line loop extension equipment are in place, or planned to serve the area. If the loop is greater than 18 kilofeet in length, the ISDN Loop Extension Charge applies.
8. Centrex *PRIME* ISDN service is established on the switch which is equipped to provide ISDN for the given exchange. This may be the local switch or this may be provided by a remote switch/terminal device located on the customers premises and served by another host central office.
9. If the central office is served by a remote switch/terminal device, the customer group will be located in the host switch for Basic and ISDN services.
10. The name of the ISDN feature package indicates the type of ISDN Service provided to the customer. The Custom ISDN feature package is available in 5ESS ISDN-equipped digital central offices.

 - The customer advises the Company that the requested Centrex *PRIME* Service replaces the existing Service;
 - The customer's request for the disconnection of the existing Centrex *PRIME* Service and the installation of the new Centrex *PRIME* Service are received by the Company on the same date;
 - The customer requests the Company to install the new Centrex *PRIME* Service on or prior to the disconnection date of the existing Centrex *PRIME* Service;
 - The customer agrees to sign the appropriate agreements and to pay all then monthly rates and nonrecurring charges related to the new Centrex *PRIME* Service.
24. The customer may move Centrex *PRIME* Service to either a new location in the same building or to a different location within the same serving area. When the move is within the same building, the customer shall pay one-half of the nonrecurring charges for the station lines affected. When the move is to a different building, all associated monthly rates and nonrecurring charges will apply, plus any other applicable charges, including but not limited to, construction charges, the transfer of existing equipment. Construction charges will be paid in advance of the move. (T)
25. The customer may add additional Centrex *PRIME* Service at existing or new locations during the term of the agreement under the following conditions: (T)
- The Company commercially offers such additions and necessary facilities are technically available;
 - The rates and charges for additional service at new locations will be the rates and charges specified in the agreement, and which correspond to the terms and conditions of the agreement; (C)
 - The Company and the customer agree that such additions shall be coterminous with the original agreement. (C)
26. Centrex *PRIME* Service is not available on Public Communications Service or multiparty service. (T)

9.1.18 CENTREX *PRIME* SERVICE

B. Terms and Conditions (Cont'd)

27. Loop Diversity, Avoidance defined in the Private Line Transport Services Administrative Guidelines is available with Centrex *PRIME* Service. (T)
28. Alternative Access of Basic Centrex *PRIME* Service over the Company's DS1 transport is permitted. In addition to Centrex *PRIME* Alternate Access station line rates, DS1 rates and charges as defined in the Private Line Transport Services Tariff apply. (T)
29. Each customer will be required to sign a contractual agreement for the furnishing of services on a rate stabilized basis. (T)
30. If the customer is provided service from a Centrex *PRIME* Service 'host' central office which is not the customer's normal serving office, the local calling area for the customer's Centrex *PRIME* Service will be that of the designated "host" central office. Changes to calling areas may affect customer telephone numbers. (T)
31. Miscellaneous facility terminations are those lines and trunks which are not a basic part of the Centrex *PRIME* system, e.g., Voice Grade circuits, and WATS, but which require Centrex *PRIME* switching capabilities in order to function with Centrex *PRIME* Service. Each miscellaneous line that is terminated in a Centrex *PRIME* system requires a termination arrangement. (T)
32. Split service common equipment is required when a Centrex *PRIME* customer desires to segregate the Centrex *PRIME* station lines into separate groups, thereby enabling each group to have a different set of system common features. (T)
33. Caller Identification Blocking - Per Call and Caller Identification Blocking - Per Line as defined in 10.7, is available with Centrex *PRIME* Service. (T)

9. CENTRAL OFFICE SERVICES

9.2 EMERGENCY REPORTING SERVICE

9.2.1 UNIVERSAL EMERGENCY NUMBER SERVICE - 911

A. Enhanced Universal Emergency Number Service - E911

1. E911 is a telephone exchange communication service whereby a Public Safety Answering Point (PSAP) designated by the E911 customer may receive telephone calls dialed to the telephone number 911. E911 Service includes lines and equipment necessary for the switching of public emergency telephone calls originated by persons within the serving area who dial 911. Rates and charges include touch-tone.
2. E911 Service and/or Private Switch Automatic Location Identification (PS/ALI) Service are offered subject to availability of facilities and equipment.
3. The E911 customer and/or PS/ALI customer may be a municipality or other state or local governmental unit, or an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been lawfully delegated. The E911 customer and/or PS/ALI customer must be legally authorized to subscribe to the service. The E911 customer must have public safety responsibility by law to respond to telephone calls from the public for emergency police, fire or other emergency services within the telephone CO areas arranged for 911 calling.
4. This service is limited to the use of telephone number 911 as the universal emergency telephone number. Only one E911 Service will be provided within any government agency's locality.
5. The 911 emergency telephone number is not intended as a total replacement for the telephone service of the various public safety agencies which participate in the use of this number. The public safety agencies will subscribe to other exchange telephone service as provided elsewhere.

Decision No.

9. CENTRAL OFFICE SERVICES

9.2 EMERGENCY REPORTING SERVICE

9.2.1 UNIVERSAL EMERGENCY NUMBER SERVICE - 911

A. Enhanced Universal Emergency Number Service - E911 (Cont'd)

6. The service is furnished to the customer only for the purpose of receiving reports of emergencies from the public.
7. E911 Service and/or PS/ALI Service are arranged for one-way incoming service to the appropriate PSAP. Outgoing calls can only be made on a transfer basis.
8. The provision of E911 Service and/or PS/ALI Service by the Company shall not be interpreted, construed, or regarded, either expressly or implied, as being for the benefit of or creating any Company obligation toward any third person or legal entity other than the E911 customer and/or PS/ALI customer.
9. The Company does not undertake to answer and forward 911 calls, but furnishes the use of its facilities to enable the E911 customer's and/or PS/ALI customer's personnel to respond to such calls on the E911 customer's and/or PS/ALI customer's premises.
10. Temporary suspension of service is not provided for E911 Service and/or PS/ALI Service.
11. E911 information consisting of the names, addresses and telephone numbers of telephone customers whose listings are not published in directories or listed on Directory Assistance is confidential. Information will be provided pursuant to Rule 7(2) and Rule 9(4), CCR 723-29.

Issued: 7-18-95

Effective: 8-18-95

1005 Seventeenth Street, Denver, Colorado

Advice No. 2547

Decision No.

9. CENTRAL OFFICE SERVICES

9.2 EMERGENCY REPORTING SERVICE

9.2.1 UNIVERSAL EMERGENCY NUMBER SERVICE - 911

A. Enhanced Universal Emergency Number Service - E911 (Cont'd)

12. The E911 calling party forfeits the privacy afforded by nonlisted and nonpublished service to the extent that the telephone number, address and name associated with the originating station location may be furnished to the PSAP and used to dispatch emergency services to the calling party's location.
13. When the Enhanced Selective Routing feature is provided, in such circumstances, Default Routing and CO identification will be provided in lieu of Enhanced Selective Routing and ANI Display.
14. The Company's entire liability to any person for interruption or failure of E911 Service and/or PS/ALI Service shall be limited to the terms set forth herein and Section 2. (D)
(T)
15. The rates charged for E911 Service and/or PS/ALI Service do not contemplate the inspection or constant monitoring of facilities to discover errors, defects and malfunctions in the service, nor does the Company undertake such responsibility. The E911 customer and/or PS/ALI customer shall make such operational tests as, in the judgment of the E911 customer and/or PS/ALI customer, are required to determine whether the system is functioning properly for its use. (T)
16. The E911 customer and/or PS/ALI customer shall promptly notify the Company in the event the system is not functioning properly. (T)
17. Each E911 customer and/or PS/ALI customer, except as otherwise prohibited by law, agrees to release, indemnify, defend and hold harmless the Company from any and all loss, claims, demands, suits or other action, or any liability whatsoever, whether suffered, made, instituted or asserted by the E911 customer and/or PS/ALI customer or by any other party or person, for any personal injury to or death of any person or persons, or for any loss, damage or destruction of any property, whether owned by the E911 customer and/or PS/ALI customer or others.

Advice No. 2579

Decision No.

9. CENTRAL OFFICE SERVICES

9.2 EMERGENCY REPORTING SERVICE

9.2.1 UNIVERSAL EMERGENCY NUMBER SERVICE - 911

A. Enhanced Universal Emergency Number Service - E911 (Cont'd)

18. The E911 customer, and/or PS/ALI customer, except as otherwise prohibited by law, also agrees to release, indemnify and hold harmless the Company for any infringement or invasion of the right of privacy of any person or persons, caused or claimed to have been caused, directly or indirectly, by the installation, operation, failure to operate, maintenance, removal, presence, condition, occasion or use of E911 Service features and/or PS/ALI Service, and the equipment associated therewith, or by any services furnished by the Company in connection therewith, including, but not limited to, the identification of the telephone number, address or name associated with the telephone used by the party or parties accessing 911 Service and/or PS/ALI Service, hereunder, and which arise out of the negligence or other wrongful act of the Company, the customer, its user, agencies or municipalities, or the employees or agents of any one of them.
19. The Company's intent will be to provide at least the same level of service reliability and quality as the telephone service being provided in the exchanges where E911 Service and/or PS/ALI Service are offered.
20. It is the obligation of the E911 customer and/or PS/ALI customer to make arrangements to handle all E911 calls that originate from telephone served by a CO in the local service area whether or not the calling telephone is situated on property within the geographical boundaries of the E911 customer's and/or PS/ALI customer's public safety jurisdiction.
21. Application for E911 Service and/or PS/ALI Service must be executed in writing by each E911 customer and/or PS/ALI customer. If application for service is made by an agent, the Company must be provided in writing with satisfactory proof of appointment of the agent by the E911 customer and/or PS/ALI customer. At least one local law enforcement agency must be included among the participating agencies in any 911 offering.

9. CENTRAL OFFICE SERVICES

9.2 EMERGENCY REPORTING SERVICE

9.2.1 UNIVERSAL EMERGENCY NUMBER SERVICE - 911

A. Enhanced Universal Emergency Number Service - E911 (Cont'd)

22. The E911 customer must furnish the Company its agreement to the following terms and conditions:
- a. That all E911 calls will be answered on a 24-hour day, seven-day week basis.
 - b. That the E911 customer has responsibility for dispatching the appropriate emergency service vehicles within the E911 service area, or will undertake to transfer all E911 calls received to the governmental agency with responsibility for dispatching such services, to the extent that such service are reasonably available.
 - c. That the E911 customer will develop an appropriate method for responding to calls for nonparticipating agencies which may be directed to the E911 PSAP by calling parties.
 - d. That the E911 customer will subscribe to local exchange service at the PSAP location for administrative purposes, for placing outgoing calls, and for receiving other calls.
 - e. That the E911 customer will subscribe to, or provide, telephone equipment with a capacity adequate to handle the number of incoming E911 lines recommended by the Company to be installed.
